| Post-secondary Division Business Meeting | Virtual Photobooth |
| National Showcase Business Panel | Grand Awards Finale Session |

ALASKA BPA MEMBER COMMENTS ABOUT NLC 2021

It was a lot of fun. I met new people by networking and communicating through social media and on the Whova app. I wish that we could have been in-person but hopefully next year we will be! I attended almost everything that was available on the agenda. I really enjoyed participating and I learned a lot. So, if you haven't attended any NLC, I would recommend you take advantage of attending next year!

~ Engen Sundberg, Alaska Statewide Post-secondary Chapter

This was the first NLC that I have attended. Even in a virtual setting, I am still very thankful and happy that I was able to attend and meet with new people from around our country and beyond.

~ Andrea Trimor, Alaska Statewide Post-secondary Chapter

I have not been involved with BPA for very long, but I've had the amazing opportunities of being able to get to know all the wonderful people I have, learning and refining different skills and aspects of myself I value, and going even further with both of those things during NLC. I talked with many people from other states and the majority said they were disappointed they couldn't attend in person. I personally loved that I was able to do it virtually this year. Being a new member, I didn't have the money raised that I would've needed to go to the conference if it was a normal year. I was still able to participate in a limited but still rewarding version of NLC that was new to all of us. I'm grateful for that. I had so many tech issues, an embarrassing speech, attended the wrong workshops, went to the wrong meetings, and I couldn't figure out how to navigate the Whova app until the last few days. Mrs. Riddle and Engen helped me out immensely with all my issues and I'm very appreciative of that. Despite all the obstacles I ran into, I still got a lot out of this conference and look forward to doing what everyone is telling me I missed out on, next year.

~Aiden Freeman, Mat Su Career & Technical High Chapter
